

EARTHBOUND

PET

2022 - 2023

OUR STORY

Earthbound is a family run business with over 75 years of collective experience within the textile manufacturing trade.

In our infancy, the business started trading in the 1980's under our first company with our focus being on producing clothing lines for large scale 'make to order' contracts in the UK and overseas with some of the biggest retailers and wholesalers across Europe.

In our development, the business quickly became a market leader in setting new trends, designs and placing a huge emphasis on quality control alongside customer service.

This working ethos and meticulous attention to detail established our reputation within the market.

After many years focusing on the clothing trade, in 2005 the family changed the business direction to focus on a young and growing pet accessory market in the UK.

This was the start of Earthbound as a new business.

The initial aim was to transfer the skills and experience learned from the clothing trade across to the pet industry and to utilise the fabrics, styles and trends that had served the family well in the clothing trade.

The transfer across was seamless and the business quickly started to gain a foothold within the pet industry.

Fast forward to the present day, Earthbound is now an established market leader in the UK pet industry well known for our quality in producing a fantastic range of goods consisting of bedding, blankets, and accessories.

The company prides itself on having their entire bedding, blanket, bandana, and dog coat ranges manufactured by Earthbound within the UK whilst, making new inroads into using more sustainable production methods and fabrics with OEKO-TEX certification.

With an innovative focus on further developing the range and retaining our unique selling point of producing most of our products within the UK, we look to progressively grow and set new trends for years to come.

With Earthbound being one of the first to introduce a tweed range of fabrics to the pet industry more than a decade ago, it is now become a signature look associated with the Earthbound brand.

The Traditional Tweed range of beds is produced from tweed manufactured by carefully choosing multiple-coloured yarns to achieve a dynamic pattern and colour distinct to Earthbound. This results in an extremely warm and hard-wearing fabric which is combined with a soft cosy Sherpa fabric or our hard-wearing durable PVC fabric in a removable cushion to provide the unique look of beds Earthbound has become known for.

CLASSIC ROUND BEDS

The Classic range of beds stand out from the market for their distinct design. With the bed walls produced from premium bonded thermal fibre, this results in a very comfortable but strong and rigid construction to prevent the walls from collapsing and protecting your pet from draft.

The inner cushions are generously filled with the same hollow fibre you will find in the vast majority of cushions on the market for human use ensuring your pet benefits from the same comfort you enjoy through the night.

CUSHIONS

Our deep filled cushions are the perfect choice for pets who love to stretch out whilst lying down. They are filled with the same hollowfibre that is used in most cushions for human use ensuring your pet benefits from the same comfort you enjoy through the night.

Our cushions use an innovative 3-Channel system where the cushions are filled in three separate compartments. This prevents the hollowfibre inside from moving around in the inner cushion while maintaining an even structure throughout when sleeping on the cushion and after washing.

The Flat Cushion Poly Bone Bed has a stylish and simplistic look. Produced using a combination of brushed polyester upholstery grade fabrics with a melange effect, it is a great hard-wearing option. The bed also features a durable zip for a removable design.

The cover fabric to the bed is easily removable with the use of a zip around the base.

REMOVABLE CUSHION COVER

The central cushion within the bed has a removable cover with the use of a zip

3-CHANNEL TECHNOLOGY

Three separate channels prevent the cushion lumping to one side for heavier dogs (excluding small).

The Rectangular Eden Bed is made from a strong durable linen look fabric available in two neutral colours perfect for most home décors.

OVAL BEDS

Our Oval Bed range ensures any pet that sleeps within a plastic bed can also benefit from the comforts of an Earthbound oval bed. Our sizes are designed to fit most plastic beds within the UK market. The cushions are filled with the same hollowfibre that is used in many cushions on the market for human use ensuring your pet benefits from the same comfort you enjoy through the night.

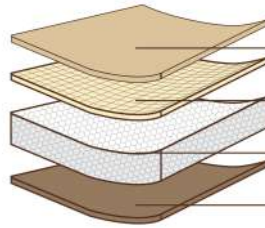

REMOVABLE CUSHION COVER

The cover fabric to the bed is easily removable with the use of a zip.

3-CHANNEL TECHNOLOGY

Three separate channels prevent the cushion lumping to one side for heavier dogs.

CRATE MATS

Our waterproof Crate Mat range is filled with a bonded thermal fibre padding suitable for multiple environments, made to fit most standard sizes cages on the market today.

Primarily designed as a dog crate mat, they can also be used as a general pet cushion for use in and around the home as well as outside. They are often used in the boot of vehicles to ensure extra comfort for your pet whilst ensuring the cleanliness of your boot is protected.

Made from a premium heavy duty PVC fabric in a non-removeable design, the cage mat can be sponge cleaned with cold water and hung to dry at room temperature.

DOG COATS

With great designs, our range of dog coats place a huge focus on quality, from the thread used to stitch together the seams through to the grade of the fabrics on the coat.

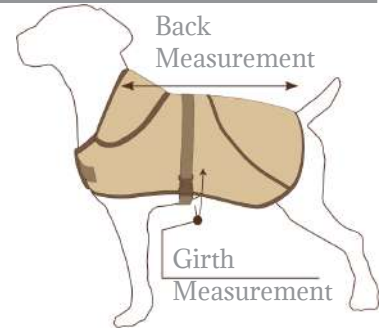

The Premium Wax Dog Coat is made from an antique wax cotton fabric lined with a thermal quilted poly-cotton on the inside. The authentically aged appearance gives the lived-in look treated to provide a degree of water resistance. The range also features metal eyelets and an antique brass finished buckle.

The Soft Country Leather Training Lead is produced from strong cow leather that is amazingly soft. The lead is 2.4 metres in length with a variety of uses due to having double trigger hooks. It can be used as a standard every day lead, long lead or a short lead for heelwork or obedience training. The lead can also be worn over the shoulder to enable hands free walking.
